---

## SUSTAINABILITY IMPLICATIONS

---

### No consideration of negative impact on sustainability

Olympia Capital Management S.A. does not consider the negative implications of its investment decisions for sustainability. Pursuant to Articles 4 (1) (b) and 4 (5) (b) of SFDR, we issue a statement as to why we do not consider these implications. Indeed, after evaluation, we did not consider it relevant for our financial products to take into account the impact on the sustainability of our entity and our products.

---

## TAXONOMY

---

In accordance with Regulation 2020/852/EU, investments underlying the financial products managed by Olympia Capital Management S.A. do not take into account the criteria of the European Union in terms of environmentally sustainable economic activities.

---

## SUSTAINABILITY RISKS

---

In accordance with Article 3 of SFDR, we publish a summary of our policy on integrating sustainability risks into our investment decision-making process. Our investment team follows a rigorous decision-making policy that excludes sustainability risks. Indeed, after assessing the issues, we have decided not to take sustainability risks into account in our investment decision-making policy. Indeed, we do not consider these risks relevant to our entity and the products we make available. All of our policies are subject to regular reassessment.

---

## REMUNERATION POLICY

---

In accordance with Article 5 of SFDR, we publish a summary of our Remuneration Policy. Olympia Capital Management follows a rigorous remuneration policy that does not integrate sustainability risks. Indeed, after assessing the issues, we have decided not to take these risks into account because they are not considered relevant for our entity. All our policies are subject to regular reassessment. Our Remuneration Policy is available [here](#).

---
